Your letters

Dear Sir/Madam,

I refer to last Sunday's letter, 'Not so safe to kiss your pets'.

In Singapore, the risk associated with the kissing of pets is relatively low. The Society for the Prevention of Cruelty to Animals does educate and encourage owners to practise good hygiene when in contact with their pets. Ultimately, the onus of acquiring accurate knowledge and practising good hygiene should still remain with pet owners.

Yours sincerely,

Deirdre Moss
Executive Officer
